Re: Petition Sewer

Dear Homeowner:

Enclosed is the petition sewer form. The signature of 51% of the Homeowners fronting the proposed sewer is required before the petition can be submitted for Board approval. The form should be signed and returned to:

Fulton County Department of Public Works
Project Engineering Section
Fulton County Government Center
Suite 6001
141 Pryor Street, S.W.
Atlanta, GA 30303

Homeowners would be assessed at the current rate per foot of frontage for the construction of the petitioned sewer. As of February 2, 2009, the current rate is \$20 per foot, but upon receiving the petition you will be contacted if the current rate was modified prior to the receipt of the petition. This fee is due from all property owners abutted by the petition sewer at the time of completion of the sewer.

Separately, at the time of connection to this new public sewer, a Sewer Connection Permit Fee is required. Finally, a physical connection would be needed to be made by a private plumber.

If you have any questions or need any additional information, please contact me at 404/612-7547 or Tim Mullen at 404/612-9564.

Sincerely,

Ray Wooten, Jr., P.E.
Engineer Administrator
